Aims and Scope

The *International Journal of Greenhouse Gas Control* covers developments in greenhouse gas control in the power sectors and in the major manufacturing and production industries. The scope of the journal includes CO₂ emissions, CO₂ transmission, CO₂ capture and storage, alternative mitigation options and non CO₂ GHGs.

For a more detailed aims and scope please visit www.elsevier.com/locate/ijggc. To submit a manuscript please visit www.ees.elsevier.com/jggc (see inside back cover of this issue for a brief guide to authors)
